ENTOMBED MAN, IN WATER TO ARMPITS, TALKS TO MOTHER.

Whiskey and Milk Sent Down in a Can and the Promise of a Chicken Dinner Revive Victim of Cavein Blaing Water the Only Serious Danger Now.

JOPLIN, Mo., Aug. 1.-Standing in water that rose to his waist, then to his armpits. while efforts were making to get a deep well pump into working order to drain the drift, Joseph Clary, imprisoned in a zinc mine eighty feet below the surface, talked over a telephone to his invalid mother in her home half a mile away to-

He did not breathe a word to her of the peril with which he was confronted.

"I'm feeling fine, mother, and to-morrow they will surely get me out," he said over the wire which ran up through a six inch drill hole, the fourth of a series that had been sunk to give him air.

He did not tell her even that as he talked the icy water was rising about him and that the narrow ledge to which he had clung above the level of the water had become soggy and crumbled off into the black flood of the drift.

He was permitted to use the telephone only a short time. The instrument was soon withdrawn and the pump pipes run through the hole. For reason the mechanism did not work per fectly, but a small stream began to pour forth

The fourth drill hole, which was begun shortly after midnight, penetrated the drift at noon to-day.

When the rescuers announced that the drill hole, five inches in diameter, had at last penetrated the drift a shout went up from the thousands who had gathered about the mouth of the mine. But the soon as Theresa had recovered from the when the workers signalled for quiet so that the man if alive might be heard. "Hello, there; hello, hello!"

shouted down the narrow tube. Several seconds elapsed and there came the feeble answer, "Hello!"

Whiskey and milk in a can were im mediately passed down and received by the prisoner, whose voice betokened his faint condition.

After the lapse of a few minutes Clary cried out up the tube: "Water about PITTSBURG, Aug. 1.-Andrew Carnegie three feet deep in some places in the drift. me if you hurry. The air is getting bad.

> "Are you all right?" shouted Clary's brother-in-law, Maurice Grafton, who has been aiding in the drilling. "Yes, I'm all right, but I'm terribly

The air is all right, and I'm all right. I haven't worried any, because I knew you were looking for me. The minute the found that Toth had been one of the drill began hitting hard ground I realized rioters on the night in question, but that that efforts were being made to supply fresh air to the drift. The thump, thump, Mr. Carnegie when he left for Europe thump of the drill seemed to continue in May instructed Mr. Wilmot if neither endlessly, and although I could not tell must have missed the mark. Sometimes

munication possible by saving the secend drill hole had hit the drift but he had been unable to make them hear him. He said: "I shouted as loud as I could. The hole was right on the side of the drift and I tried my best, but you couldn't hear me. Then I thought you had moved the drill further away from me, and I was a mite discouraged."

The milk and stimulant sent down t him was supplemented later this evening with a light lunch and at midnight he has research of examination and analysis the promise of a chicken supper. He has called for chicken several times and told his sister, with whom he talked at noon.

> He has dug a level place in the slope at the higher end of the drift and has that this was Wednesday, so a watch was sent down to him. A thin rope has also been lowered and attached to his waist so he can be pulled out of water. An electric light was sent to him wrapped in copies of newspapers containing accounts of his imprisonment.

The latest word from Clary was that the water was still rising slowly.

The work of clearing out the shaft was resumed with redoubled vigor, and unless another cavein occurs it is believed that Clary will be released from his prison

Clary is 32 years old, the son of a pioneer mine operator of this city. He and three other miners were in the White Oak lead and zinc mine Sunday when the walls of the shaft began to slide. The three other men, taking warning, escaped before the cavein but Clary was imprisoned.

> The excursionists were from Massena, Ogdensburg and Watertown and had spent the day at Cornwall. Leaving Cornwall this evening on the way back to Massena, where the members of the excursion party were to board a train for their home stations, the steamer ran into shallow water before the pilot knew it and crashed full speed into a shelving rock. The craft quickly listed and while the excursionists hurriedly put on life preservers and jumped into the river the boat suddenly keeled over.

Rescuing parties hearing the vessel' whistles of distress put out from shore and saved many of the persons who were floundering in the river. There were many exceptional rescues and instances of heroism, and to the bravery of those who rushed to the scene in motor boats and other small craft is due the fact that there was not greater loss of life.

GEN. ACEVEDO WAVES THE TORCH IN HIS MANIFESTO.

The Former Veteran Gathers a Rand On posite Havana and Starts for Matanzas-Expects Uprising There and in Pinar del Rio - Denounces Gomez. Special Cable Despatch to THE SUN.

HAVANA, Aug. 1.-Gen. Acevedo, veteran of the war of independence has taken up arms against the Government, and it is reported to-night has fifty well armed men en route for Matanzas, where it is said a strong force will join him. It is also said that a simultaneous uprising has been planned in the province of Pinar del Rio.

Gen. Acevedo started out from Regla which is across Havana harbor, and at Guanabacoa, five miles distant, shot a man who refused to join his band as a guide. Along the route Acevido has distributed a manifesto to the people "for the people." It sets forth:

"The constant immoralities, robberies and pillage of the Gomez Administration forces us to take arms against the rotten Government and its still more rotten administration, which has trampled on the people and destroyed our national honor, which cost the sacrifice of so many lives to obtain. All Cubans, whether civilians or military, who feel any love for their homes or for their country are offended and we count upon their aid.

"We give the Government fifteen days to relinquish authority. If the Government fails to do this we shall reduce all the territory of the republic to ashes As to methods of warfare we demand that all corporations shall fail to give transportation to the Government military under penalty of suffering similar destruction of property.

AUTHOR AND FELLOW BLUE LAW BREAKERS GET IS HOURS.

Members of Single Tax Colony, Accused by Vengeful Anarchist, Plead Guilty

and Refuse to Pay Fines-Victims Will Go After All Sabbath Violators. WILMINGTON, Del., Aug. 1.-Upton Sinclair, the socialist author, and his ten associates of the single tax colony at Arden, Del., will serve eighteen hours

The sentences began at 9 o'clock tonight. The prisoners will equal the valor of George Brown, the philosophical anarchist who in revenge had them arrested yesterday for violating the Sunday laws.

each in the Newcastle county workhouse.

The colonists were taken to prison to-night. They pleaded guilty when arraigned before Magistrate Robertson and were fined \$4 and costs each with be sacked and that the occupation will be the exception of Fred Steinline, the ice cream merchant, who was directed to pay a fine of \$8 and costs. They all refused to pay their fines.

> In addition to Sinclair and Steinline the patriots who will spend the night and part of to-morrow in prison are Prof. J. H. Garrod of the Northwest Manual Fraining School, Philadelphia; Fred Windle, a Philadelphia lawyer; Don Stephens, son of Frank Stephens, millionaire founder of the colony; Harold Ware, Hamilton Ware, Berkeley Toby, Frank Leach. Chester Lightbown and Alexander Dubin Sinclair was charged with playing tennis. The others with the exception of Steinline were accused of playing base-

ball. Brown took this radical step because he was arrested last week for breaking up a single tax meeting at the colony and was fined \$2. In default he served five days in jail. The others therefore are more fortunate in the matter of imprisonment.

When the author of "The Jungle" and his followers were arraigned before the Magistrate this evening Sinclair acted as spokesman for the defendants. They all pleaded guilty.

The Magistrate called Brown as the prosecuting witness. He was not popular with the Ardenites, as repeated sneers proved. After saying that he saw the defendants playing tennis and baseball he declared that the games were boisterous and disturbed his peace. "While serving my term in jail last

week," he said, "I decided the laws were a penefit after all and I determined to bring these disturbers to account." The Magistrate said: "You all admit

having played the games and sold the ice cream. A trip to the workhouse will do you good." The Magistrate then imposed the fines. After considerable figuring between the Magistrate and Sinclair the former decided that the jail sentence of twenty-

four hours provided for non-payment of this particular fine was excessive. He therefore made the term eighteen hours all around. Sinclair announced that he and his companions would not enrich the county's treasury. The eleven started for the workhouse, five miles away, on a trolley car. Their sole custodian was Constable Green, who placed them on their honor

They were all put in steel cells. They will be liberated at 3 o'clock tomorrow afternoon. Sinclair declared to-night that he will organize an anti blue law club and ask for warrants for the arrest of everybodylin

not to jump off the car. Sinclair paid the
